Introduction

SHENU FASHION STORE is a modern online fashion marketplace that allows customers to browse, purchase, and receive fashionable clothing and accessories from anywhere at any time. The platform provides a secure shopping experience with easy product discovery, online payments, order tracking, and personalized recommendations.

Teenagers and young adults

Working professionals

Fashion-conscious men and women

Target Audience

Online shoppers looking for convenience

Customers seeking affordable and trendy fashion

Fashion enthusiasts across Sri Lanka

Problem Statement

PROBLEM

Customers often struggle to find trendy fashion products due to limited availability in physical stores, time-consuming shopping, difficulty following the latest trends, lack of personalized recommendations, limited payment and delivery options, and challenges in comparing products and prices.

OUR SOLUTION

SHENU FASHION provides a secure, user-friendly online shopping platform where customers can discover trendy fashion products, receive personalized recommendations, make secure payments, track their orders, and enjoy fast delivery from one centralized marketplace.

Objectives

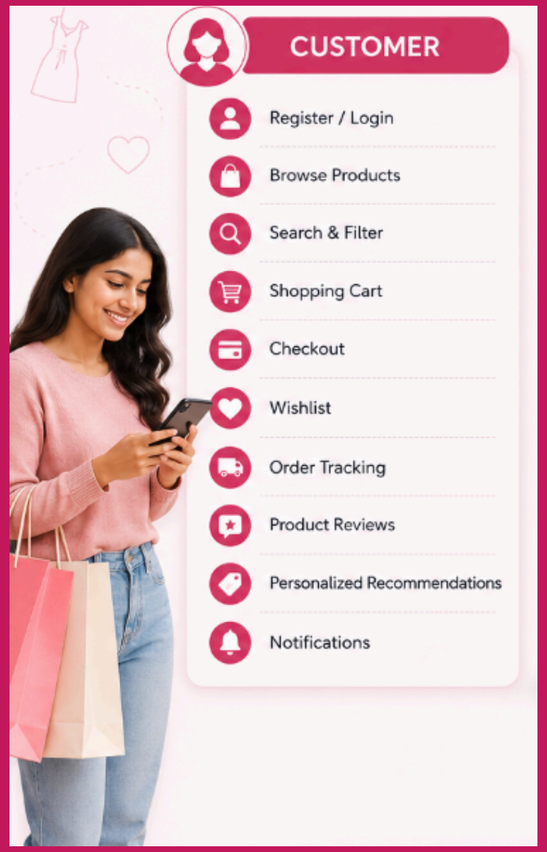

GENERAL OBJECTIVE

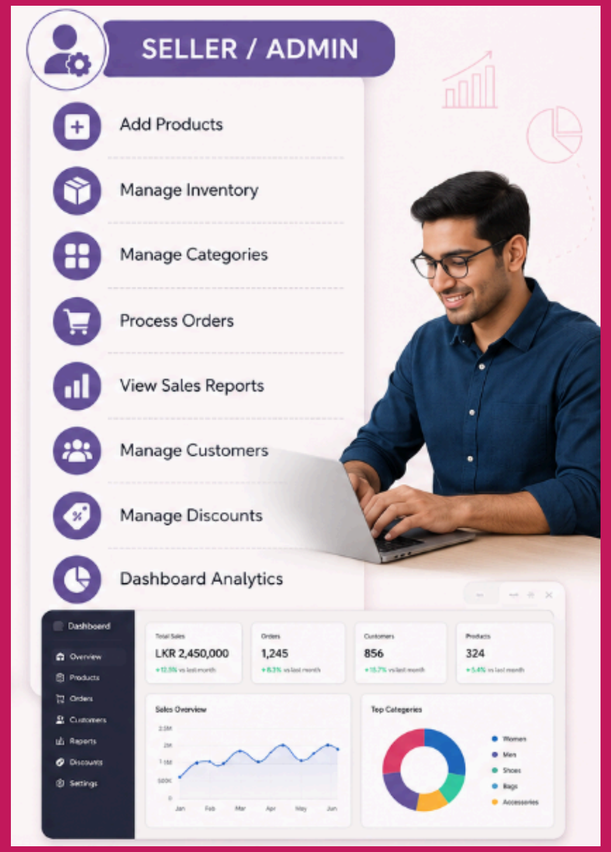

Develop a secure and user-friendly e-commerce platform that allows customers to purchase fashionable clothing and accessories online while providing a personalized shopping experience.

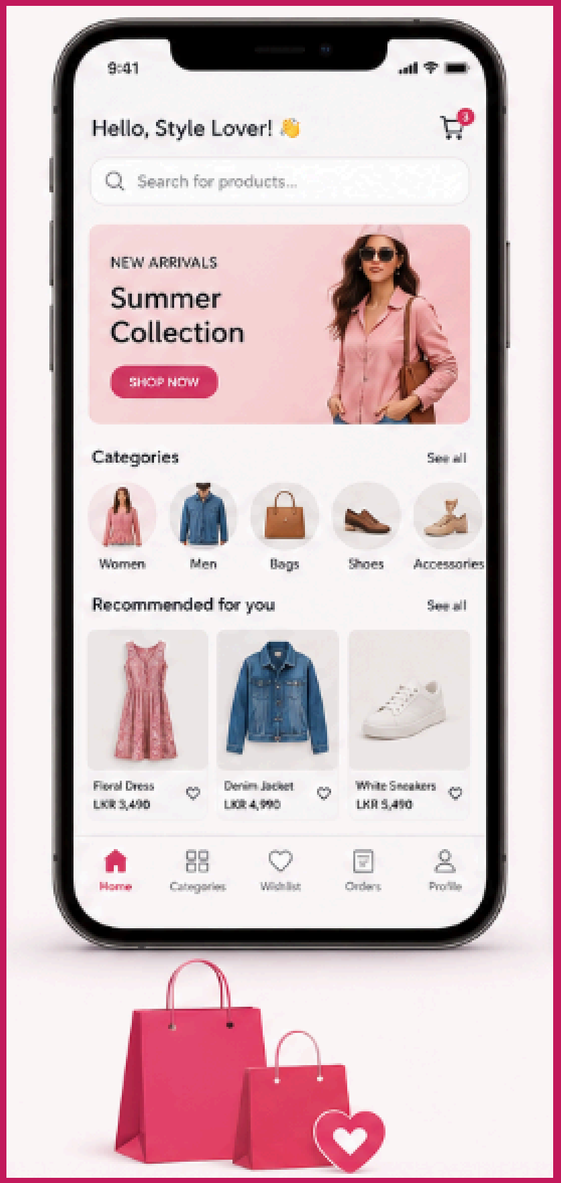

OBJECTIVES

01 Secure user registration and authentication
02 Product catalog with advanced search and filtering
03 Shopping cart and secure online payment
04 Order management and tracking
05 Customer reviews and ratings
06 Admin dashboard for inventory and order management

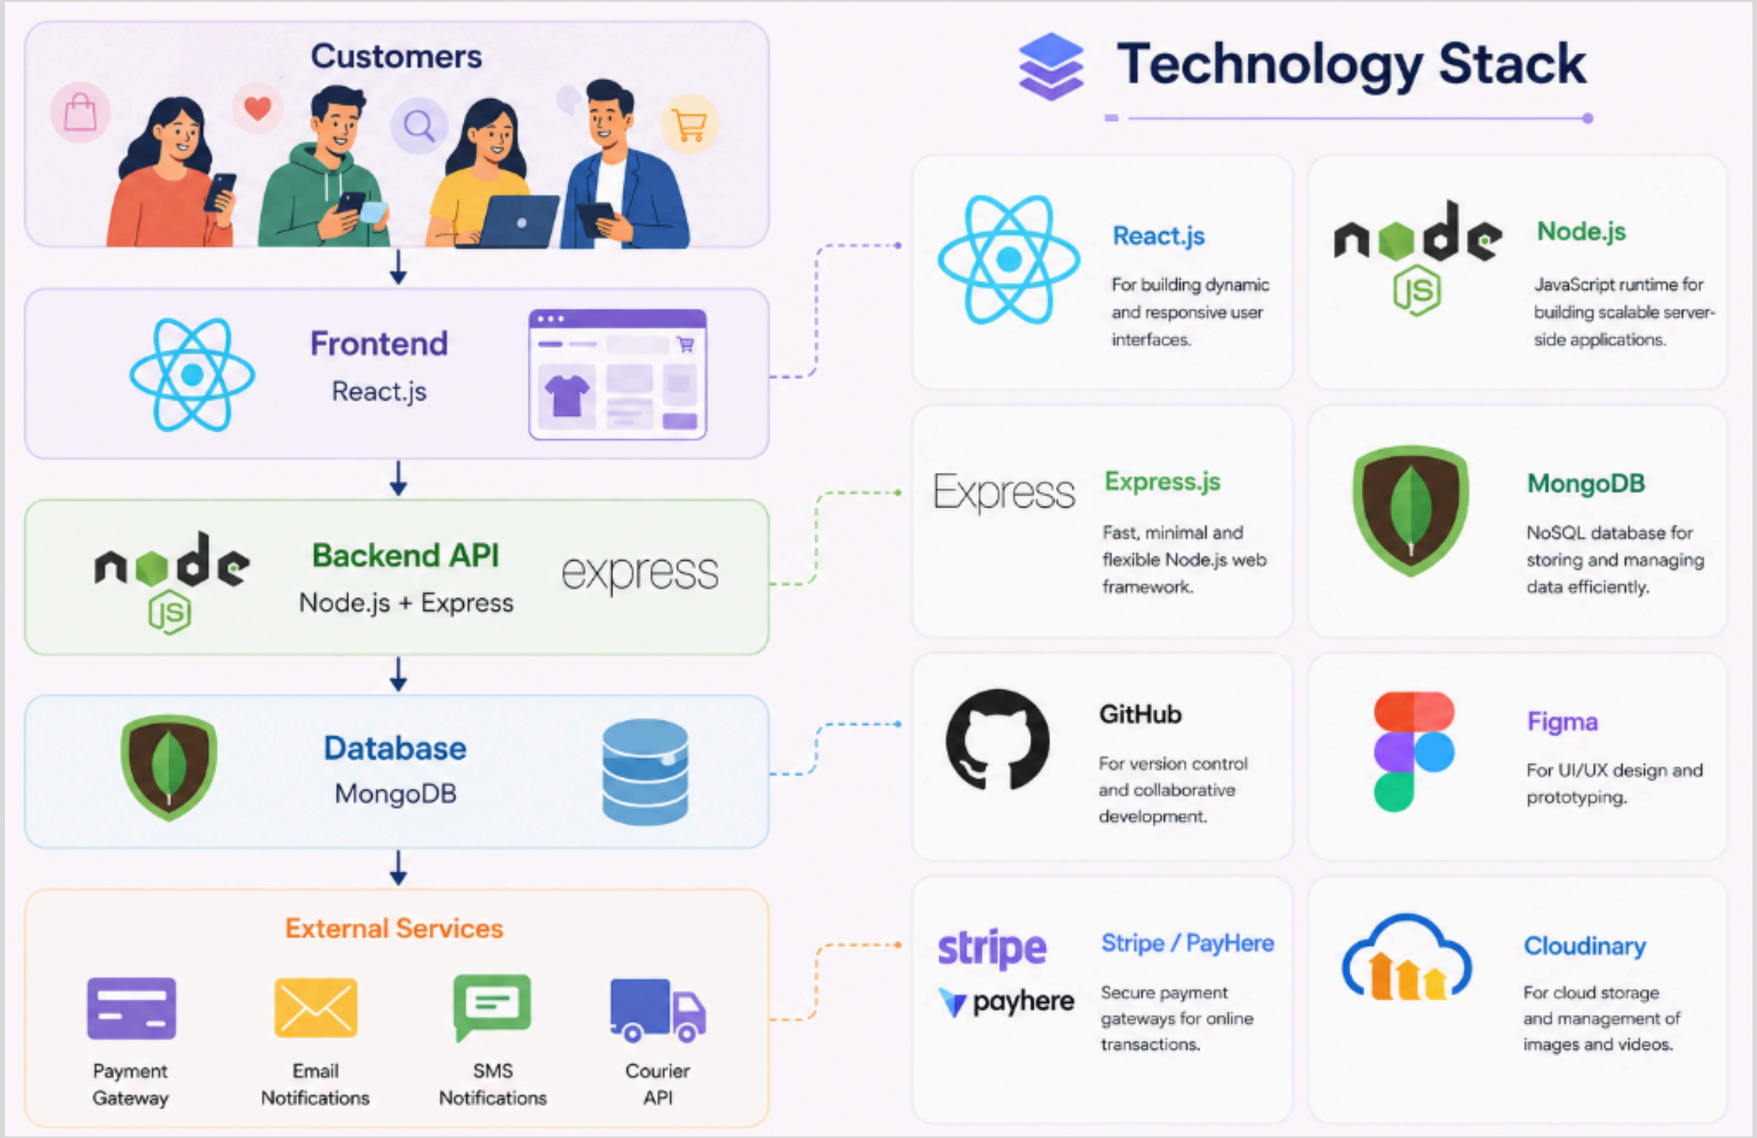

Proposed Features

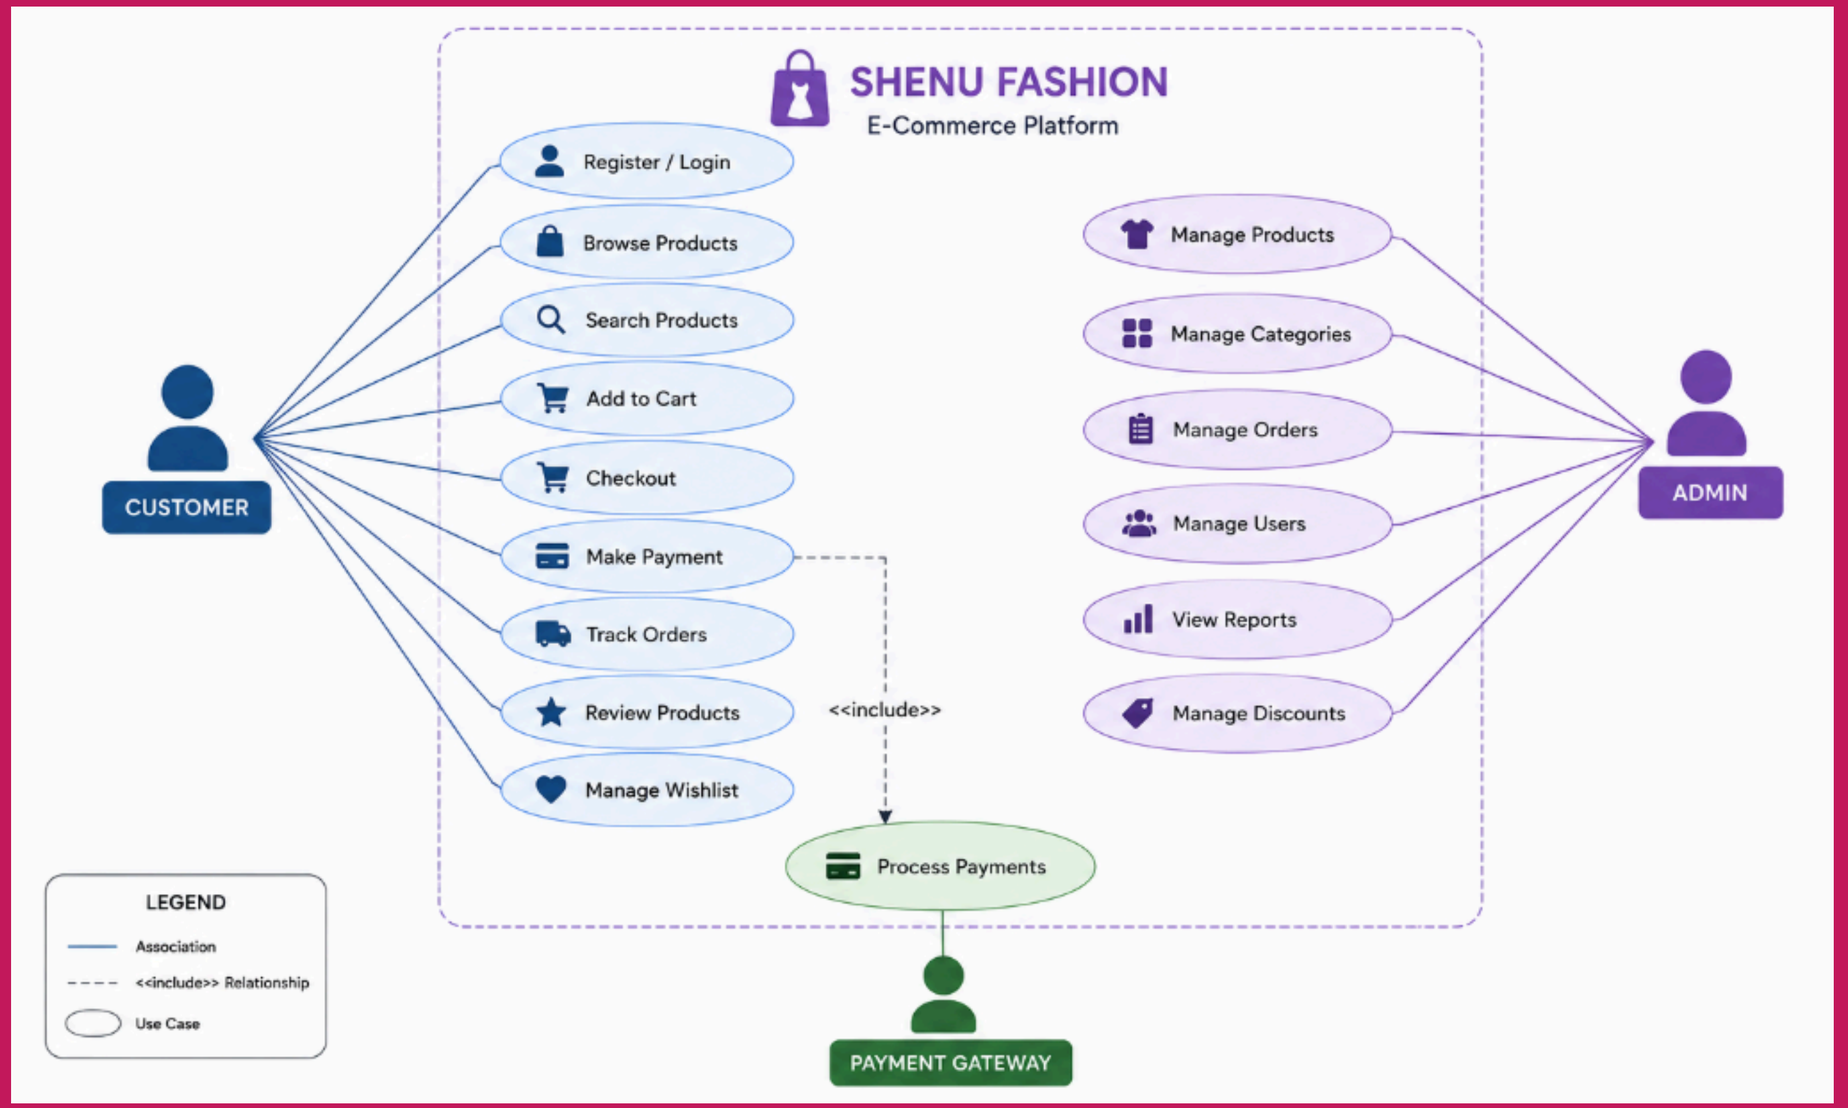

System Architecture & Technology Stack

Use Case Diagram

Team Organization

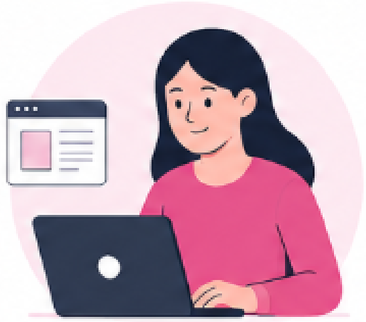

MEMBER 1
